## Personal Skills

Effective communication skills and can relate with other teammates

Meets and keeps all projects due date's with the minimal viable product

Good with working as a team and knows how to lead teams

## Accomplishment

**Director and Founder, Nairobi** – *Hackend Consultancy solutions.*

**Employee of the Year, Nairobi** – *Finesoft Afrika*

## Work Experience

**Programme Manager, Nairobi** – *Smart People Africa*

January 2022 – Current

I was changed roles and I now currently work on actualizing projects, I take raw ideas and convert them to schemes that the company can benefit from financially and socially also while achieving the SDG6 rules

**Frontend Developer, Nairobi** – *Smart People Africa*

September 2021 – December 2021

For the four months of working at SPA as a Developer, I worked on building a solution for the B2C market, the project however can't be named until it's released. I worked with react and a bit of Node js.

**Freelance Developer, Nairobi**

June 2020 – Current

During the entirety of the Covid period, I decided to lay of corporate work and try to do freelance because of the flexibility

I made a wide selections of apps of which most are internal Systems that are used by individual and companies alike

## **Consultant, Nairobi** – *Finesoft Afrika*

September 2019 – June 2020

Worked on fineract applications for microfinance companies and Saccos. We used a java backend and Js frameworks for the frontend, Angular for web and React Native for the Android Devices

## **Quality assessment, Nairobi** – *Kenya industrial allied*

March 2019 – September 2019

Worked on an internal phoenix system, Python backend and Javascript frontend, We used React admin templates to render the Administration side of the applications

## **Volunteer activities**

I volunteered to teach my younger nephews and nieces how to code for the last 2 years, they have steady progress considering their ages

Volunteer at Our local Church

## **Interests**

Music: I have been Teaching Myself how to play piano and guitar

Photography: Did a Couple of photography projects and think of it as a hobby

Gaming: Started streaming a while ago but stopped
